Subject: Quality Assurance Manual Revision 5 Change 4

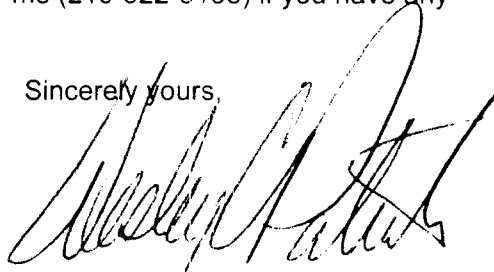

Dear Mr. Rubenstone:

The Geosciences and Engineering Division has issued Revision 5, Change 4 of its Quality Assurance Manual. This change satisfies Intermediate Milestone 14002.01.021.820, which is due September 15, 2008.

The purposes of this revision are to update the organization chart for Southwest Research Institute® and provide a few minor format corrections. The changes from Revision 5, Change 3 are not significant from a quality assurance program perspective. Consequently, this change does not reduce quality program commitments.

Please contact Robert Brient at (210-522-5537) or me (210-522-5158) if you have any questions on this matter.

Sincerely yours,

Wesley C. Patrick  
Vice President
