Subject: Fwd: Decommissioning activities

To All:

I have been called to support the stabilization and recovery efforts associated with the plutonium (Pu-239) release at the NIST-Boulder, Colorado Facility. We are assigned to the facility for 6 weeks as of June 30. Therefore, I request to postpone our delivery date for the FSS Report from July 11 to August 15.

I will be happy to fill anyone in on the NIST project (to the extent that I can) by phone; feel free to call for any reason.

Respectfully,

Shane Brightwell, MS, CHP

Subj: Re: Decommissioning activities

Michelle,

I left you a voice mail this morning in response to the inquiry. The only remaining decommissioning activities are associated with the final status survey. I have set a date for delivering the Final Status Survey Report to you by July 11, 2008.

Feel free to call or write with any additional questions or comments that you may have.

Regards,

Shane Brightwell, MS, CHP
