

July 9, 2008

Mr. Robin DeLaBarre
U.S. Department of State
2201 C Street, NW
Office of Nuclear Energy Affairs, Room 3318
Bureau of International Security and Nonproliferation
Washington, D.C. 20520

Dear Mr. DeLaBarre:

Enclosed is an application (PCB103.0) recently received by the U.S. Nuclear Regulatory Commission (NRC), dated July 1, 2008, from Weatherford International, Inc., & Subsidiaries & Affiliate Companies for a specific license to export and import Category 2 quantities of Americium-241, Americium-241/Be, and Cesium-137 to Libya with a proposed expiration date of September 30, 2017. The sealed sources will be used in oil and gas well logging operations for export from the United States to Libya.

Since Libya is on the restricted destinations list (110.29), before taking action on this new request, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the requested export meets the applicable criteria in the Atomic Energy Act of 1954, as amended.

Sincerely,

/RA/

Stephen Dembek, Branch Chief
Export Controls and International Organizations
Office of International Programs

Enclosure
Application Dated 07/01/08
PCB103.0 - Libya
