Telephone No. 203-737-2140
610-337-5075
Subject: Status of Financial Assurance Instruments.
(NOTE: This will be used as the Documents Title in ADAMS)

Summary: Ms. Steven called and left a message on my voice-mail concerning their financial assurance action. The issue was discussed during their Radiation Safety Committee Meeting concerning the lowering of its possession limits. A number of the people for whom signatures are required are on vacation which will delay sending in the final copy. A rough draft of the document was e-mailed to me so that I could review it and get back to her with any comments.
I spoke with Ms. Steven on July 9, 2008. Ms. Steven stated that the licensee will be submitting an amendment to the license to lower its possession limits. We agreed that the Certificate of Financial Assurance should be held for verbal approval of the limits. The Self-Guarantee needs to state all the locations of use instead of the wording in License Condition 10 which is more global in nature. (I.e., LC 10 states Yale U. campus, buildings under direct control of Yale U. and a medical facility). The licensee will be submitting a complete rewrite of the Self-Guarantee. I stated that it is alright to do that even though it will slow down my review since I will need to look at the whole document in comparison with what was previously submitted. I thanked Ms. Steven for her continued attention to this matter.
