

NEDO-33201
Section 7
From Revision 2 to Revision 3 Change List

Formatting & editorial changes have been made to improve consistency and readability. These changes include changing fonts in tables, removing excess spacing, correcting punctuation, & spelling, and correcting grammar. Acronyms have been spelled out where appropriate.

Item	Location	Description of Change
1.	S7.1	Added clarification on the use of sequence markers, and small impact on CDF from non-minimal sequences.
2.	S7.2.4	Deleted the word minimal from the second column header in the table and the text. As noted in Section 7.1, the sequence markers cause a small increase in CDF due to non-minimal cutsets sequences.
3.	S7.2.4	Corrected minor grammatical errors (tense).
4.	T7.2-4a	Corrected the row showing the total contribution for each drywell level category. The percentages are correct, but the CDF contributions are not accurate (small changes).
5.	S7.3.2.6	Added clarification for mutually exclusive combination
6.	S7.3.3	Added reference to Section 11.
7.	S7.3.4	Corrected typo
8.	S7.3.4	Update the name of the third column to clarify that the percentage listed represents the percent increase from the previous truncation value results.
9.	S7.2.6	New section summarizes insights based on importance report.
10	S7.1	Added reference to Section 16 for shutdown CDF
11	S7.2	Added clarification listing the truncation value used to generate the core damage frequency results.
12	S7.2.4	Added clarification for spurious software error (i.e. falsely perceived)
13	S7.2.4	Corrected description for cutset number two based on results.
14	S7.2.4	Added clarification in the description of CRD failure (cutset number nine).
15	S7.2.5	Deleted reference to the revision for Section 21
16	S7.2.5	Added clarification for cause of steam explosion.
17	S7.2.5	Provided additional details on how the results were obtained for drywell water level core damage sequences.
18	T7.2-2	Added footnote, and corrected the class labels for loss of decay heat removal

NEDO-33201
Section 7
From Revision 2 to Revision 3 Change List

Formatting & editorial changes have been made to improve consistency and readability. These changes include changing fonts in tables, removing excess spacing, correcting punctuation, & spelling, and correcting grammar. Acronyms have been spelled out where appropriate.

Item	Location	Description of Change
19	T7.2-3	Clarification - Updated the header for the second column to indicate that single initiating events, or gates with multiple initiating events, are listed in the table.
20	T7.2-4a	Added footnote stating that sequences that did not yield results are excluded from the table.
21	T7.2-5	Added clarification and/or footnotes to improve the description of the top ten accident sequences.
22	S7.3.2.4	Editorial corrections
23	S7.2.2	Added short discussion of CDII-B in 7.2.2
24	S7.3.2.2	Deleted filename ("Seqmaster.caf") from 7.3.2.2
25	S7.2.3	Editorial corrections
26	S7.3.4	Editorial corrections
27	T7.2-1	Editorial changes in Table 7.2-1
