Subject: Byproduct Material License Amendment Application
NRC License Number: 29-30383-01 03034418

Dear Sir:

Palatin Technologies, Inc. ("Palatin") would like to amend its Radioactive Material License No. 29-30383-01.

Please delete Scott Greene and Maria Schiltz from the list of Authorized Radioactive Material Users, since they are no longer working for Palatin Technologies, Inc.

We wish to appoint Marie Makhlina as our new Radiation Safety Officer. Marie has been with Palatin since 2002 and has used radioactivity extensively for R&D purposes. She is trained to handle radioactive material and has worked at Palatin mainly with ^{125}I material for screening proprietary compounds. She received personal training in RSO duties and functions by Wesley R. Van Pelt, PhD, CHP lasting 1.5 days. She is responsible for radioisotope log-in and inventory, handling radioactive material, analyzing samples with various instruments, waste handling/disposal and performing daily/weekly radiation surveys. Marie has been appointed to be in charge of operations involving radioactive material at Palatin.

If you require any additional information please feel free to contact Marie at 609-495-2255.

Very truly yours,

Stephen T. Wills
EVP-Operations and Chief Financial Officer
