

Title: Calvert Cliffs Nuclear Plant Public Meeting: Afternoon Session

Location: Solomons, Maryland

Date: Wednesday, March 19, 2008

Corrections to Statement of Mr. William Johnston

Page 104, lines 18 – 21

Coal burning uses more ~~demand~~ land than solar, once you take mining into account, that you are cutting off the mountain tops here and there, filling the ravines.

Page 105, lines 11- 14

We are changing the basic biochemistry and the biology and physics of the ~~plant~~ planet at an ever-accelerating rate, and we are starting to lose the species.
