Lisle, IL 60532-4352

Subject: NRC License 24-24332-01

Dear NRC,

As required under NRC CFR 35.14, we have changed our department lay out and are notifying you of those changes of our current areas of use. We are also removing a physician from our list of Authorized Users.

Please amend license in the following way:

As required under 10 CFR 35.14, 10 CFR 35.100 and 10 CFR 35.200

1. The area designated as Room #9 on our site map has become an imaging room. We have purchased a Spectrum Dynamics D-Spect imaging system that we will locate there.
2. The area that is designated as Room 10, we request to be removed from our license as an area of use. (We have never actually used by-product materials in area 10 but have maintained it under our license to allow for future growth.)
3. As is displayed on the new map enclosed, we have designated the new nuclear medicine waiting area as Room 10. We will continue to survey and complete the appropriate wipe testing as required under our license for all areas of use.
4. Please remove Bruce Hedgepeth, M.D. from our list of Authorized Users.

If you have any questions or concerns please contact me at 417-269-0590
Thank you for your time concerning these changes,

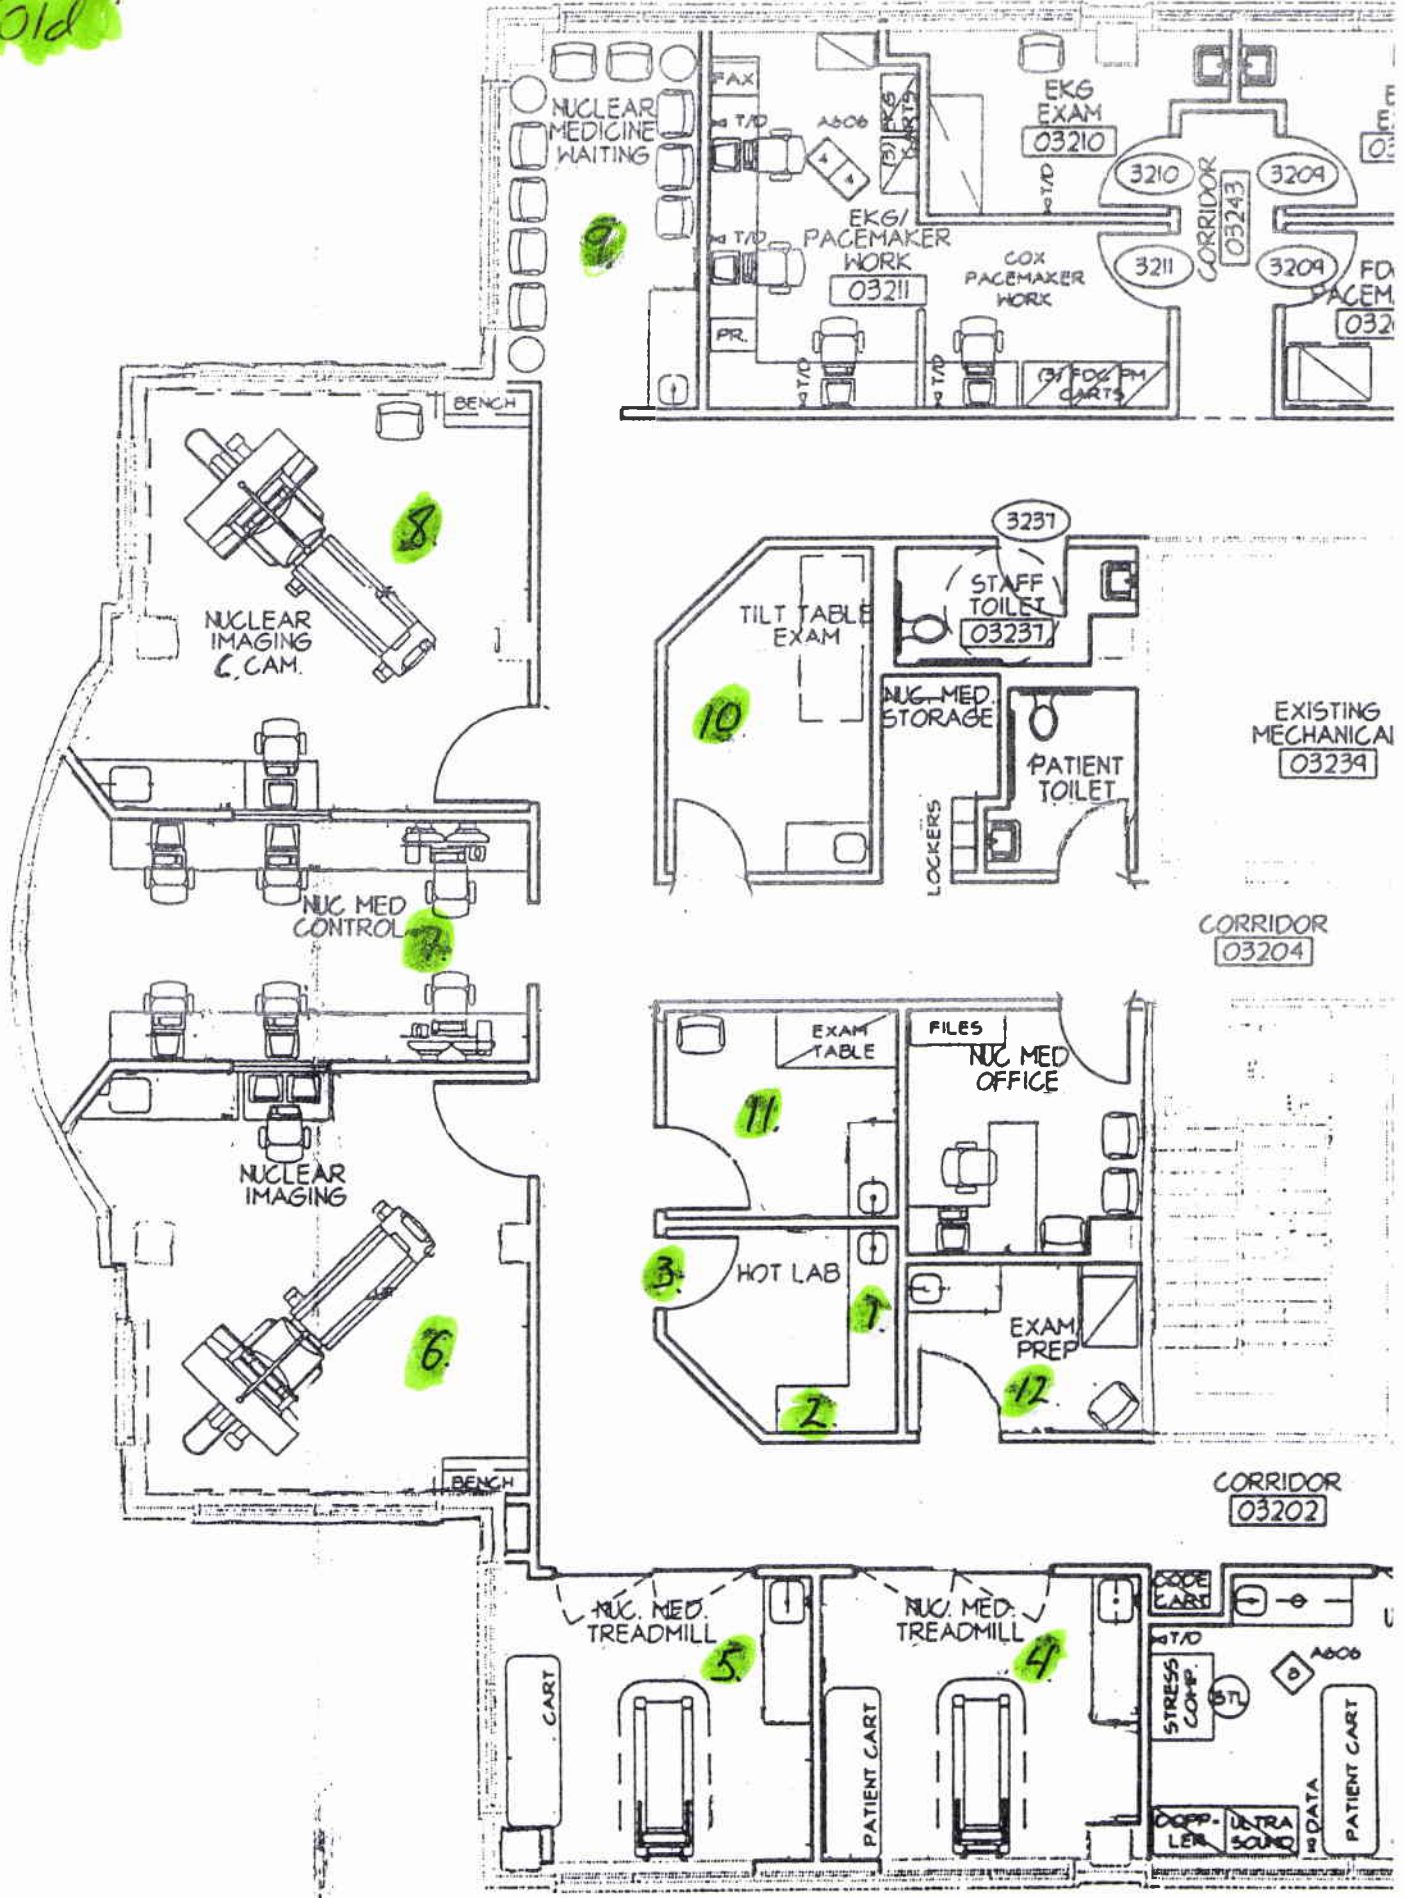

Sincerely,

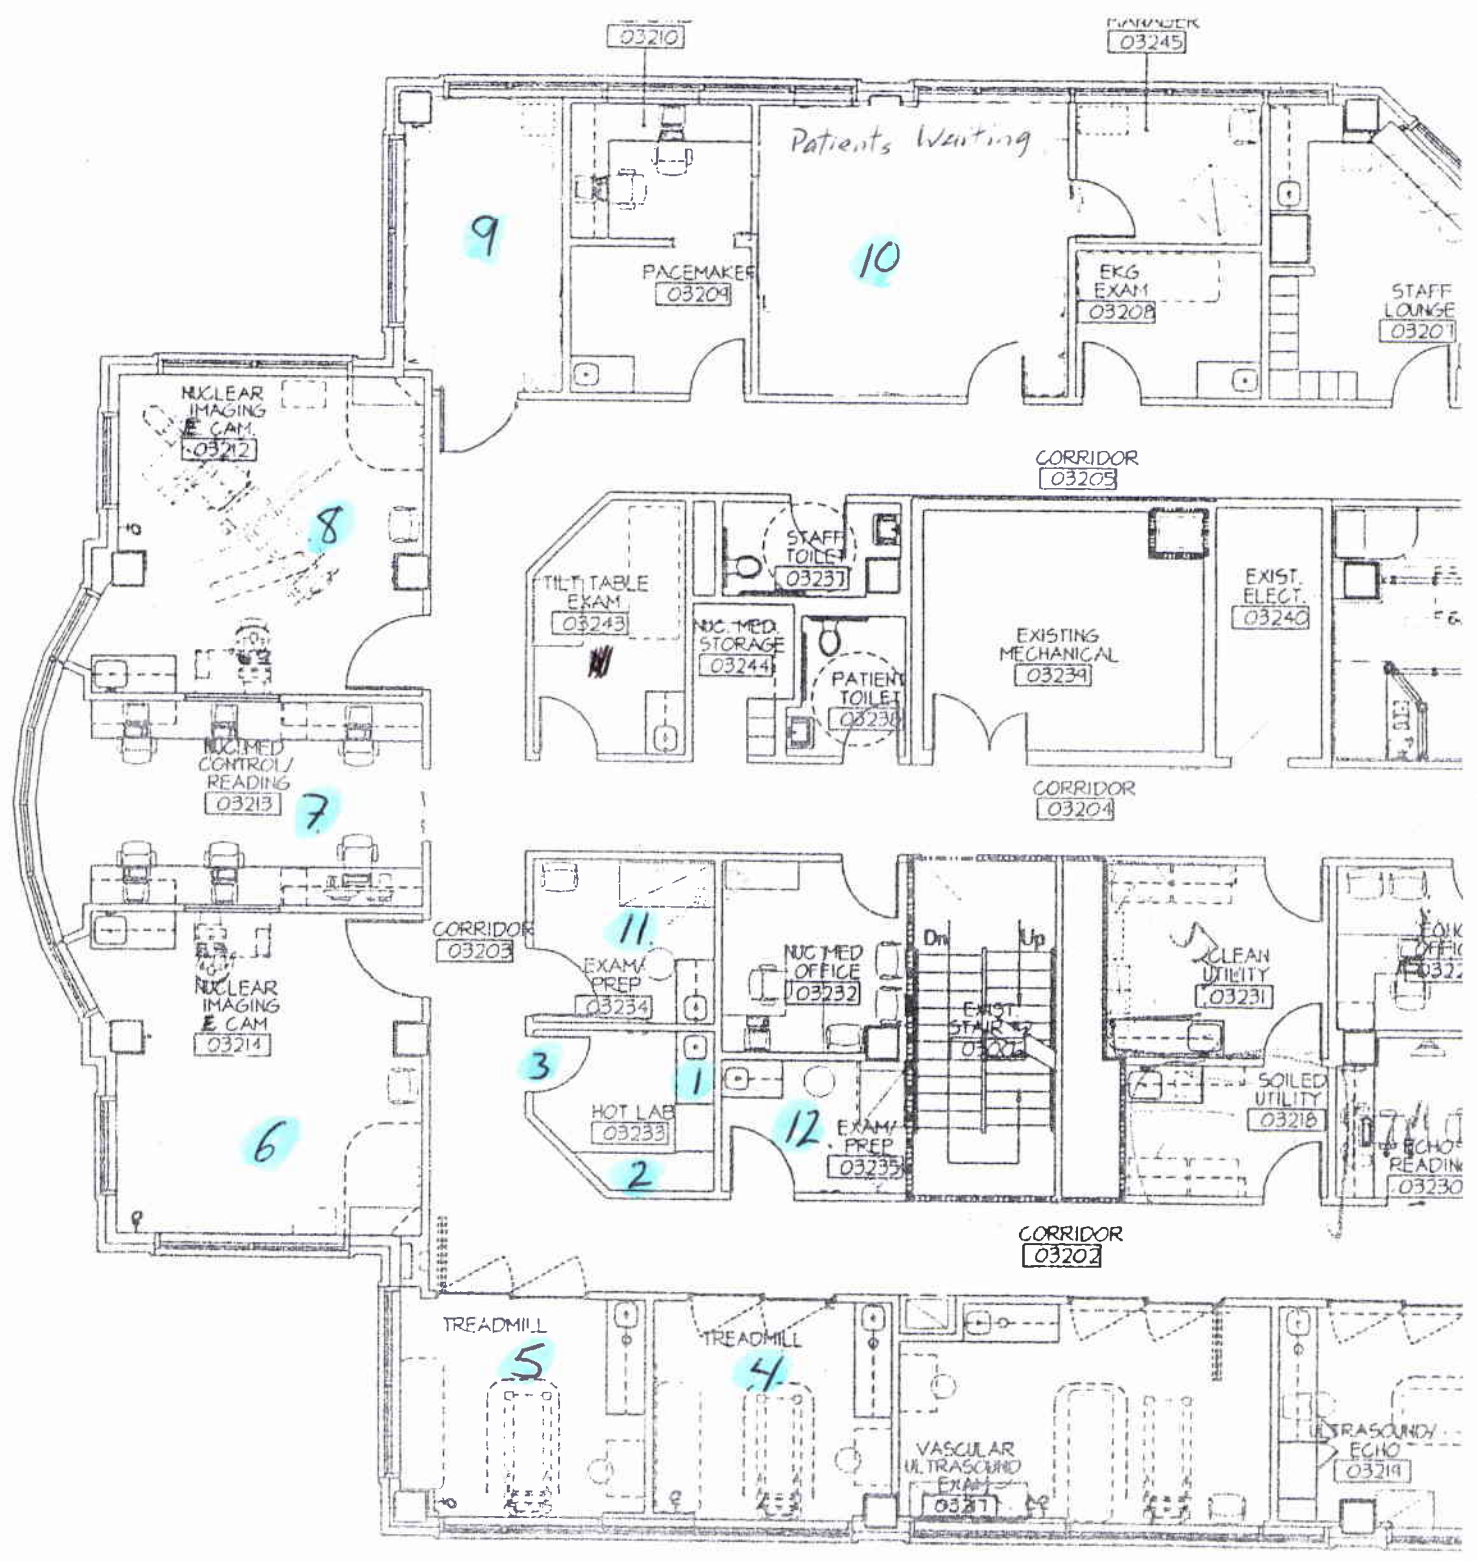

Stephen S. DeFord, CNMT
Supervisor of Nuclear Medicine Services
Wheeler Heart and Vascular Center
3800 S. National
Springfield, MO 65807
