

NOV 26 1991

MEMORANDUM FOR: Paul H. Lohaus, Chief
Low-Level Waste Management Branch
Division of Low-Level Waste Management
and Decommissioning, NMSS

FROM: Charles J. Haughney, Chief
Fuel Cycle Safety Branch
Division of Industrial and
Medical Nuclear Safety, NMSS

SUBJECT TECHNICAL ASSISTANCE REQUEST: HERITAGE MINERALS, INC. --
DISPOSAL PLAN FOR MONAZITE SAND

A copy of a technical assistance request from John Kinneman, Region I, was provided you by a memorandum of September 12, 1991, subject as above, addressed to you and me, from John E. Glenn, Medical, Academic, and Commercial Use Safety Branch, IMNS.

Our review of this request indicates that it is a matter of the acceptability of a proposed process for onsite disposal of waste, and thus requires an LLWM technical review, per Section III.c. of NMSS Policy and Procedures Letter 1-41, NMSS Policy and Procedures for Implementation of the NMSS Decommissioning Program. Therefore, we will defer all action on this request to LLWM.

Original Signed by

Charles J. Haughney, Chief
Fuel Cycle Safety Branch
Division of Industrial and
Medical Nuclear Safety, NMSS
