Dear Mr. Kinneman:

Councilman Ralph Rizzolo of Manchester Township has requested that the New Jersey Department of Environmental Protection arrange a meeting between the Manchester Township Committee, the NRC, and involved bureaus of the New Jersey Department of Environmental Protection. Representatives from Heritage Minerals and their consultants will also attend.

Assistant Commissioner McCann, Division of Hazardous Waste Management, has asked this office to coordinate the scheduling of this meeting. Councilman Rizzolo has requested that the meeting be scheduled on March 23, 1989 at 10:00 AM. The meeting is to take place at the Manchester Town Hall, Route 37, Manchester Township, NJ.

Councilman Rizzolo and the Township Committee would like a historical overview and status report of each agency's involvement with Heritage Mineral. They would also like to know the direction each agency's involvement will taken in the future.
