RE: RSO – Notification of Change
Megan, LLC dba Fairfield Testing Laboratory (Bridgeport, CT)
License No. 06-19279-01
Docket #03017254

To Whom It May Concern:

The purpose of this letter is to provide formal notification of a change in status of our listed Radiation Safety Officer.

Effective immediately, I would like to appoint Neil Russo as our Radiation Safety Officer. Mr. Russo has recently been hired to fill the position of Laboratory/Operations Manager and as part of his duties, is responsible for training existing staff and new hires in the proper use, care and transportation of lab equipment, including the equipment relevant to this license. Mr. Russo completed a RSO Training Class which was conducted by Troxler Electronic Laboratories, Inc. in May, 2000. More recently, he completed a basic CPN training course which was conducted by CPN International in December, 2006. Copies of his training certificates are enclosed for your review.

Robert Black, our RSO since July 2007, remains on staff in a full time capacity here at Fairfield Testing Laboratory and is aware of and participating with this transition. If you need further information or documentation in order to amend our license, please contact our office as soon as possible and we will comply immediately. If you have any further questions, please feel free to contact me at your convenience.

Very truly yours,

James E. Quill, P.E.
JEQ/scb
