CBP1a-3

July 11, 2008

Scott Moore  
Deputy Director, Office of International Programs  
U.S. Nuclear Regulatory Commission  
11555 Rockville Pike, Rockville, Maryland 20852

Re: Amendment Request for Combination Import/Export license CBP1a-2

Dear Mr. Moore,

Weatherford International, Inc. (including subsidiaries and affiliate companies)<sup>1</sup> requests an amendment to our existing combination import & export license CPB1a-2 for Appendix P, Category 2 radioactive materials for multiple countries. The amendment is requested to reflect changes, both domestic and foreign, in our entity name and addresses, as well as changes to the countries of ultimate destination.

In consultation with Stephen Baker of OIP, it was determined that the cost for this license amendment will be \$770, which is included as an enclosure to this submission with a completed NRC Form 629 for this amount.

If you have any questions related to this matter, please do not hesitate to contact me. My contact information can be found below.

Regards,

Jeffrey S. Pettigrew

IMPORT AND EXPORT LICENSE

NRC FORM 250P (12/05)

United States of America
Nuclear Regulatory Commission
Washington, D.C. 20555

NRC LICENSE NO.: CBP1a-2

LICENSE EXPIRES: April 30, 2009

Page 1 of 3

Pursuant to the Atomic Energy Act of 1954, as amended, and the regulations issued by the Nuclear Regulatory Commission (NRC) pursuant thereto, and in reliance on statements and representations heretofore made by the applicant/licensee, this license is hereby issued authorizing the licensee to import and/or export the byproduct materials listed below, subject to the terms and conditions herein. This license is only valid if the licensee maintains the requisite NRC or Agreement State domestic licenses.

Table with 2 columns: LICENSEE and ULTIMATE FOREIGN CONSIGNEE(S). Licensee: Precision Energy Services, Inc. Ultimate Foreign Consignee: See exemption and condition information below. Other columns: INTERMEDIATE CONSIGNEE(S) IN FOREIGN COUNTRY(IES) AND/OR IN THE U.S. (NONE), OTHER PARTY(IES) TO IMPORT AND/OR EXPORT (Listed on Page 3).

COUNTRY(IES) OF ULTIMATE DESTINATION: Argentina, Australia, Austria, Bangladesh, Belarus, Belgium, Bolivia, Brazil, Bulgaria, Canada, China, Denmark, Estonia, Ethiopia, Finland, France, Germany, Ghana, Greece, Guatemala, Hong Kong (China), Hungary, Ireland, Italy, Japan, Kazakhstan, Kuwait, Latvia, Lithuania, Luxembourg, the Netherlands, New Zealand, Niger, Norway, Paraguay, Philippines, Poland, Portugal, Romania, Russian Federation, Singapore, Slovakia, South Africa, South Korea, Spain, Sweden, Switzerland, Thailand, Turkey, United Kingdom, United States, Vietnam, and Yemen.

DESCRIPTION OF 10 CFR PART 110, APPENDIX P, BYPRODUCT MATERIALS TO BE IMPORTED AND/OR EXPORTED (NOTE: SEE PAGE 2 FOR DEFINITIONS OF CATEGORY 1 AND CATEGORY 2)

Export and import to and from countries listed under 'Country(ies) of Ultimate Destination,' Category 2 quantities of Americium-241, Americium-241/Beryllium, and Cesium-137, contained in sealed sources for use in oil and gas well logging operations.

Licensee is responsible for compliance with all applicable export, import, and other domestic regulatory requirements, including all terms and conditions of domestic materials license(s), and subject to the following specific exemption(s) and/or condition(s). Licensee is exempt from submitting information required by 10 CFR §110.32(d) and "pertinent documentation" required by 10 CFR §110.32(h) with its application for named and unnamed recipient(s) {ultimate foreign consignee(s)} in foreign country(ies), until 24 hours prior to shipment. If at any time throughout the duration of the license, the licensee or its foreign affiliate(s) will not maintain control of the exported material, the information and pertinent documentation required by 10 CFR §110.32, must be received by NRC in advance of the transfer, and in accordance with the notification requirements of 10 CFR §110.50.

License expiration date is based on April 30, 2009 expiration date of the State of Texas, Department of State Health Services, Radioactive Material License L00747. This license is amended to 1) change licensee's address and to 2) add additional import and/or export locations.

//////////////////////////////////////END//////////////////////////////////////

Neither this license or any right under this license shall be assigned or otherwise transferred in violation of the provisions of the Atomic Energy Act of 1954, as amended. This license is subject to the right of recapture or control by Section 108 of the Atomic Energy Act of 1954, as amended, and to all of the other provisions of said Act, now or hereafter in effect and to all valid rules and regulations of NRC.

THIS LICENSE IS INVALID UNLESS SIGNED BELOW BY AUTHORIZED NRC REPRESENTATIVE Margaret M. Doane NAME AND TITLE: Margaret M. Doane, Deputy Director Office of International Programs DATE OF ISSUANCE: May 24, 2007

IMPORT AND EXPORT LICENSE

**Table 1: Appendix P to Part 110--Category 1 and Category 2 Radioactive Material Threshold Limits**

Radioactive Material	Category 1		Category 2	
	Terabequerels (TBq)	Curies (Ci) <sup>1</sup>	Terabequerels (TBq)	Curies (Ci) <sup>1</sup>
Americium-241	60	1,600	0.6	16

Thulium-170	20,000	540,000	200	5,400
Ytterbium-169	300	8,100	3.0	81

**Calculation of Shipments Containing Multiple Sources or Radionuclides:**

The "sum of fractions" methodology for evaluating combinations of radionuclides being transported, is to be used when import or export shipments contain multiple sources or multiple radionuclides. The threshold limit values used in a sum of the fractions calculation must be the metric values (i.e., TBq).

I. If multiple sources and/or multiple radionuclides are present in an import or export shipment, the sum of the fractions of the activity of each radionuclides must be determined to verify the shipment is less than the Category 1 or 2 limits of Table 1, as appropriate. If the calculated sum of the fractions ratio, using the following equation, is greater than or equal to 1.0, then the import or export shipment exceeds the threshold limits of Table 1 and the applicable security provisions of this part apply.

II. Use the equation below to calculate the sum of the fractions ratio by inserting the actual activity of the applicable radionuclides or of the individual sources (of the same radionuclides) in the numerator of the equation and the corresponding threshold activity limit from the Table 1 in the denominator of the equation. Ensure the numerator and denominator values are in the same units and all calculations must be performed using the TBq (i.e., metric) values of Table 1.

- R1 = activity for radionuclides or source number 1
- R2 = activity for radionuclides or source number 2
- Rn = activity for radionuclides or source number n
- AR1 = activity limit for radionuclides or source number 1
- AR2 = activity limit for radionuclides or source number 2
- ARN = activity limit for radionuclides or source number n

$$\sum_1^n \left[ \frac{R_1}{AR_1} + \frac{R_2}{AR_2} + \frac{R_n}{AR_n} \right] \geq 1$$

**NOTIFICATIONS:** The notifications required by 10 CFR 110.50(b)(4) are to be emailed to hoo1@nrc.gov (preferred method) or faxed to 301-816-5151. In the subject line of the email or on the fax cover page include: "10 CFR 110.50(b)(4) Notification." To contact someone in the Operations Center, use the same e-mail address or call 301-816-5100. The contact information is current at the time of license issuance. Difficulties notifying the U.S. Nuclear Regulatory Commission must be promptly reported to the Office of International Programs' import/export licensing staff.

<sup>1</sup> The values to be used to determine whether a license is required are given in TBq. Curie (Ci) values are provided for practical usefulness only and are rounded after conversion.

<sup>2</sup> The limits for Pu-238 and Pu-239/Be in this table apply for imports to the U.S. The limits for exports of Pu-238 and Pu-239/Be can be found in § 110.21.

**Sent:** Monday, July 14, 2008 4:52 PM  
**To:** Robin Barnes  
**Subject:** NRC Amendment Request for CBP1a-2; RE: Request for Clarification  
**Attachments:** Licensing Guidance

Robin,

I am not sure why you are using the term "agency" when referencing to us. Perhaps this is of no concern.

Weatherford International, Inc. is a domestic licensee of both the US NRC and the Texas Dept of Health for use of radioactive materials.

1) We are changing both our domestic licensee name due to the acquisition of Precision Energy Services and its affiliates and subsidiaries by Weatherford International. Note footnote 1 on the cover page.

Answer: Yes

2) We are changing our licensee name in Box 1 to reflect these changes. The administrative address where I am located has not changed since the last amendment to this license.

Answer: Yes

3) Yes, we are adding the countries listed to the license amendment request as they are designated as "Type 1" countries in the attachment from Stephen Baker. In an attempt to be consistent with NRC's designated country names, I am using the specific name for countries as shown in the Licensing Guidance email sent by Stephen Baker (attached). I do not have a preference to what the countries are called as long as Hong Kong, China (PRC) and Russia (Russian Federation) are all covered under the new license amendment.

Answer: Yes and Yes

Robin, as to have an "original" signed copy of form 629, I was told that an original was not necessary. As yours is the 3<sup>rd</sup> licensing action I've tendered in a row to NRC in the last 45 days, you are the first to request the copy with the original signature. I can send you a copy of the original for this amendment request and others. I have it now in my possession, not Dana Jensen. But this may not be necessary if you agree with the email from Gail M. Thompson of the DOI/NBC located in Denver who processes these transactions for NRC.

Let me know if you still need the original and if there is a better address than to the Deputy Director of OIP.

**Sent:** Monday, July 14, 2008 12:51 PM  
**To:** Pettigrew, Jeff S  
**Subject:** Request for Clarification

July 14, 2008

Good afternoon Mr. Pettigrew:

CBP1a-3

My name is Robin Barnes, and I work for the U.S. Nuclear Regulatory Commission, Office of International Programs.

I am writing to you with regard to the amendment request our office received from you today to amend CBP1a-1. I would ask that you clarify your amendment request in writing, please.

My interpretation of your request is as follows:

1. Your agency name is changing from:  
Precision Energy Services, Inc., A Weatherford Company  
to  
Weatherford International Inc. & Subsidiaries & Affiliate Companies
2. Your agency address did not change
3. You are changing your Ultimate Foreign Consignees as follows:  
- Adding: Chile, Costa Rica, Mexico, Namibia, Qatar, Taiwan, & United Arab Emirates

and

You are changing the following Ultimate Foreign Consignees to read as:

- China and Hong Kong (China) combined to read as China and Hong Kong
- Russian Federation to Russia

Please confirm via email that you are in agreement with this, or PLEASE advise should my interpretation be incorrect.

Many thanks!

P.S. I left a detailed voice message for Dana Jensen regarding our NRC Form 629 Credit Card Authorization. Our office will need to receive the original signed document in order to process your amendment request. All we received was a Xeroxed copy.
