Re: License #29-00170-08

03036894

Br. 3

To Whom It May Concern:

Bell Laboratories, Division of Lucent Technologies, has determined that there is no longer a need to possess the sealed sources under license 29-00170-08. Bids have been requested from licensed facilities, brokers, and the original manufacturers for proper disposal. Leak tests conducted since the sources were acquired show that there has been no leakage of the radioactive material. It is anticipated that appropriate records and the request for license termination will be submitted before the end of 2008.

If there are any changes in regulatory requirements from NUREG 1556/Vol 5 that we need to be aware of, please advise.

I can be reached at the above address or at (908)-582-5907 or at rquick@alcatel-lucent.com.

Sincerely,

Richard Quick
Senior Manager – Radiation Safety Officer
