or Report No(s).

Docket No(s). 030-13022

Name of Licensee: University of Vermont

Name of Participant(s): Betsy Ullrich, NRC and Tom Kellogg, UVM Radiation Safety Office Associate

Telephone No. 802-656-2570

Subject: Status of update of financial assurance
(NOTE: This will be used as the Documents Title in ADAMS)

Summary: I spoke with Tom Kellogg again to get a progress update on the revised DFP and new Certification of Financial Assurance. He had called a few weeks ago with some questions.

He said that the revised cost estimate for decommissioning is still well below the actual amount they have put aside in the FA instrument. He is ready to submit the updated DFP/cost estimate. He had additional questions about the Certification, and thought they had to revise the FA instrument to update the Certification. I reviewed the RAI and the FA Audit information, and the FA instrument is fine. It is the Certification of Financial Assurance (model on page A.4.2.4) that was enclosed with the RAI that needs to be revised to list the radionuclides for which FA is required. He does have that enclosure, and will halt the efforts to update the FA instrument itself.

He expects to be able to send the updated DFP/cost estimate and the new Cert of FA out by the end of next week, unless the legal office decides they want to update the FA instrument anyway.

Action Required: Wait for response to RAI. Telecon record to file.
