Subject: Re: 3rd Meeting Summary

I really don't have time to go to Bethesda before we leave; I have training the week before, so that only left next week. I probably need to do one more after we get back. Although after we get back, we might want to revisit more things.

In the 3rd meeting summary, I wrote about their using concrete albedos. However, my notes don't say what the disposition of that was. Do you remember?

>>> Christopher Tripp 02/26/2008 2:50:26 PM >>>
That's all right. Several of them I thought we'd sent over and we haven't. Nobody is pushing on this right now, mostly I just wanted to get mine done while they were still relatively fresh. It'll help put the SER together later.

The reason I was pushing on this now is that we have a bit of a lull, between our on-site visits in Bethesda and the trip (and now the meeting on RAIs).

Do you anticipate having to go back to Bethesda any time soon?

Chris

Chris,

Attached is my input to the 3rd summary from August 2007. I added stuff you asked for in the closeout meeting for operating limits; see if you think it captures what was said.

Sorry for not getting this to you sooner. I must have overlooked it; perhaps it was getting the RAI's done that caused me to forget. it also doesn't help that no one seems to read these things anyway or send them to MOX Services.

Craig

Craig,
I'm trying to track down all 9 meeting summaries. The first two have actually been issued. Attached are the 3rd and 4th. I thought we'd sent them to the PMs, but now I don't know. Do you? Had I sent these to you? Did you do input for them?

So you have the 5th (November 6-8) and 7th (January 8-10) that you're working on, right?

That means that I only need to finish the 3rd, 4th, 5th, and 7th.

Chris
