License No. 21-13255-01

Re: Your letter dated June 28, 1981 requesting user status on License No. 21-13255-01

Dear Dr. Winston:

In order for us to continue our review of your request, we need additional information as specified below.

1. Please have a member of the Woodland Medical Group's managerial team (i.e., director, radiation safety officer, etc.) concur in writing with your request.

2. Please describe your experience actually handling radioactive material. Include the specific isotopes handled, their maximum activities, the location where the experience was obtained, the duration of the experience, and the type of use. Submit this information in the form outlined in Item 5, Supplement A (enclosed).

3. If you desire authorization for Group III material, please have your preceptor verify that you have personally participated in at least five procedures to elute Tc-99m, including testing of eluate, and at least five procedures to prepare radiopharmaceuticals from Group III reagent kits.

4. Please have your preceptor confirm that you have received at least 500 hours of supervised clinical radioisotope training.

We will continue our review of your request upon receipt of this information. Please reply in duplicate and refer to Control No. 05118.

Sincerely,

B. J. Holt
