Subject: North Anna Water Quality Data

All,

I spoke with Doug Kemp (Bechtel) at 12:45 PM (Pacific) regarding clarification of our additional information request from the environmental site audit. He said the summarized water quality data for the entire year is currently in Bechtel's internal review. He thought the raw data from the analytical laboratory could be provided immediately. However, I advised them that I'd rather await the more organized format. Doug expected it would be available in a week or two.

This is the year baseline lake water quality data. They did not have a full year at the time the application was prepared.

Lance
