RE: License # 34-30614-01
Control #317229

Dear Mr. Null,

As a follow-up to our conversations on Friday, July 18, Shared PET Imaging confirms that we will have no reference sources for calibration and transmission, aboard our mobile units, which will exceed the activity of those listed in 10 CFR 35.65. The 68-Germanium sealed sources characteristically do not exceed 5 mCi each.

Thank you for your attention to this item,

James S. Fisher R.S.O.
