Subject: NA3 COLA Discussions with Staff

Hi Tom,

As you are aware, Gina is on a well deserved vacation with her family through Wednesday of this week. She better not call in tomorrow for our 0830 call with you !!

Two additional topics/questions have come up that we would like to discuss and clarify with the staff some time this week.

1. We received the RAI with the 45 questions in the Emergency Preparedness area regarding the ETE as expected today. In Gina's notes, she mentioned that FEMA was going to contact the state and local agencies directly with their questions regarding our EP section of the COLA. If that is the case, we would like to prepare our state and local agency points of contacts that this was going to occur and that we (NA3 Licensing group) along with our EP organization will assist them in answering the FEMA questions as necessary. Our question is, who and when is FEMA going to be contacting in the VA state and local agencies?

2. This is a follow-up question to a discussion last week regarding RAI question RAI 9.05.01-2, assessing multiple spurious actuations. We believe we reached agreement with the NRC reviewer (apologize for not remembering his name) last week that GEH provided the required information via a GEH RAI response, however, this information was in the GEH RAI response and not incorporated in our COLA or the ESBWR DCD. We (Dominion / ESBWR DCWG) thought the GEH RAI response author would know exactly what information in the GEH RAI response was being requested to be moved to the ESBWR DCD or COLA. Unfortunately, we found out today, the GEH author does not know specifically what information would satisfy the NRC reviewer for this section. Our question is, could the NRC reviewer provide more detail on the specific information he would like to see incorporated into either the DCD or the COLA either via email or a discussion with us on the phone again?

We would appreciate your assistance on these two items and we can discuss tomorrow after our call or at another time convenient for you. Thanx and we will talk with you at 0830 tomorrow.
