NOTICE

This message is intended only for the use of the individual or entity to which it is addressed and may contain information that is privileged, confidential, or exempt from disclosure under applicable law. If the reader of this message is not the intended recipient or the employee responsible for delivering the message to the intended recipient, you are hereby notified that any dissemination, distribution or copying of this communication is strictly prohibited. If you received this communication in error, please notify the sender immediately by telephone and return the original to the above address, by U.S. Mail. Thank You.

The following additional information is needed to review your request. The NRC license showed that Riverview Hospital was licensed to use at least 250 millicuries of gadolinium-153 and 30 millicuries of cesium-137. For each source you were authorized to use under 10 CFR 35.500, please submit the following information:

1. Please submit copies of the leak test results that were current when you disposed of the sealed sources.

2. Please submit copies of the disposal records (or transfer records) that show the sealed sources were properly disposed of. Usually, disposal companies will send you a receipt showing that they received your sources for disposal.

Please send a facsimile (630- 515-1078) of your response to the above within 5 days and refer to control 317118. Please call me at 630-829-9839 if you have any questions.

From the desk of:

Bill Reichhold
