RE: NRS License No. 21-13255-01
Add Authorized User

Dear Sir/Madam:

This letter is to affirm that Nanjappa Sadasivan, M.D. has achieved a level of competency sufficient to function independently as an authorized user for medical uses under 10CRF 35.100 and 35.200.

Dr. Sadasivan is certified in diagnostic radiology by the American Board of Radiology. He has continued work experience in nuclear medicine and interpreted diagnostic scans at our facility under the supervision of our authorized users for 10 years, from August, 1987 to December, 1997. During that time, Dr. Sadasivan had been reading nuclear medicine images on a daily basis, interpreting approximately 850 scans per year. Per Dr. Sadasivan, he has continued to interpret nuclear medicine images from January, 1998 to the present time at two diagnostic imaging centers other than DMC Health Care Centers.

As management and authorized user, we approve and confirm the request to add Dr. Sadasivan as an authorized user to our license.

If you have any questions or require additional information, please contact our physics consultant, Cari Dzanbazoff, at 734-662-3197.

Sincerely,

Carolyn Zolnoski
