(NOTE: This will be used as the
Documents Title in ADAMS)

Summary: I attempted to contact David Bennett, Radiation Safety Officer at 302-633-8262 and left a message. The voice-mail indicated that I should speak with Keith Morgan if the issue involved radioactive materials. I informed Mr. Morgan that we had received a phone call from Robert Feke of Kintetsu World Express (440-826-1938) about a lost shipment containing radioactive materials. The freight had been lost of 7/16/08. I advised Mr. Morgan that the individual should be contacted for the specifics on the incident and that the information should be provided to the Operations Officer of NRC.

Action Required: Place in ADAMS for review during next inspection.
