SUBJECT: ERRATA FOR FORT CALHOUN STATION - NOTIFICATION OF AN NRC TRIENNIAL FIRE PROTECTION BASELINE INSPECTION 05000285/2008009

Dear Mr. Banister:

This Errata corrects the report number listed in the subject line of our original transmittal letter (ML081120496). The subject line erroneously identified the inspection as 05000285/2008006 instead of 05000285/2008009. Please replace the cover page with the enclosed revised page. We regret any inconvenience this may have caused.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and your response (if any) will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS), accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).

Sincerely,

/RA/

Neil F. O'Keefe, Chief
Engineering Branch 2
Division of Reactor Safety

SUBJECT: FORT CALHOUN STATION - NOTIFICATION OF AN NRC TRIENNIAL FIRE PROTECTION BASELINE INSPECTION 05000285/2008009

Dear Mr. Bannister:

The purpose of this letter is to notify you that the U.S. Nuclear Regulatory Commission (NRC), Region IV staff will conduct a triennial fire protection baseline inspection at your Fort Calhoun Station in July and August of 2008. The inspection team will be comprised of reactor inspectors from the NRC Region IV office and a contractor. The team will conduct the inspection in accordance with the baseline Inspection Procedure 71111.05T, "Fire Protection (Triennial)."

The schedule for the inspection is as follows:

- Information gathering visit: July 8–10, 2008
- Onsite inspection: July 28–August 1, 2008
  August 11–15, 2008

The team will visit the Fort Calhoun Station on July 8–10, 2008, to gather information, select the fire areas for evaluation, identify documents needed to support the inspection, obtain unescorted access, and to become familiar with your fire protection program. The enclosure to this letter provides an initial list of the documents the team will want to review. The team leader will request that you transmit copies of some of the documents to the NRC Region IV office for team use in preparation for the inspection. We would appreciate it if you could send this information so that it will arrive in our office in Arlington, Texas, by the dates listed in the enclosure.

We request that during the onsite inspection weeks, you ensure that copies of analyses, evaluations, or documentation regarding the implementation and maintenance of the fire protection program, including post-fire safe shutdown capability, be readily accessible to the team for their review. Of specific interest are those documents that establish that your fire protection program satisfies NRC regulatory requirements and conforms to applicable NRC and
