NEB 8004 - FIFTH INTERIM REPORT

The subject deficiency was initially reported to NRC-OIE Inspector J. D. Wilcox on May 1, 1980 in accordance with 10 CFR 50.55(e). Interim reports were submitted on May 30, August 5, November 6, 1980 and January 15, 1981.

The most recent system test indicates that the required flow rates have been achieved. This will be confirmed through further testing. We expect to submit our next report by April 7, 1982.
