I think we were going to make the deadlines for everything the same, including providing the information parties were unable to provide at the oral argument, information regarding the recent violation(s) in Nebraska, an update on the Staff's expected schedule for the technical/safety and environmental documents, and this would appropriately include as well a formal request to participate by all the Tribes that expressed an interest at oral argument, noting contentions on which all Tribes wish to participate, responses to these, and, if appropriate, replies on all relevant matters. If the transcript indicates anything additional, or if any party recalls anything differently, please inform the Board and all other parties in the next couple of days, please.

Based on your indication of an August 15 date for the initial submissions, my inclination would be to make the response deadline a week to two weeks after that, and any reply deadline a week later.

I am in the middle of moving my office right now, but will issue an order on behalf of the Board addressing all these matters, and any others I may have overlooked, in the near future.

Judge Young

Dear Administrative Judges,

During the prehearing conference on July 23, 2008, the Board requested that the Staff provide a general timetable of the Staff's ability to provide a written response to questions raised by the Board. If the Board and other parties find it agreeable, the NRC Staff can provide a response to questions related to 10 CFR Part 110 and the request to identify applicable sections of 10 CFR Part 20 and 10 CFR Part 40, Appendix A by August 15, 2008.

In addition, just for clarification purposes, is the response (and the deadline to respond) to the Board's questions exclusive of a response by the NRC and the Applicant to the request to participate as interested persons on admitted contentions by the Oglala Sioux Indian Tribe? I was unsure if I missed that part of the discussion at the end of the July 23, 2008 proceeding.

Regards,

Andrea' Z. Jones
