

August 13, 2008

Dr. William J. Shack, Chairman
Advisory Committee on Reactor Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

SUBJECT: STRETCH POWER UPRATE APPLICATION FOR THE MILLSTONE POWER
STATION, UNIT 3

Dear Dr. Shack:

During the 554th meeting of the Advisory Committee on Reactor Safeguards (ACRS or the Committee) on July 9 –11, 2008, the ACRS completed its review of the stretch power uprate application for the Millstone Power Station, Unit 3 (MPS3) and the associated safety evaluation prepared by the U.S. Nuclear Regulatory Commission (NRC). The NRC staff appreciates the Committee's quick, yet thorough review of the MPS3 stretch power uprate and associated safety evaluation.

In a letter to Chairman Dale E. Klein, dated July 23, 2008 (Accession No. ML081930783), the Committee provided its final report on the MPS3 stretch power uprate. The staff agrees with your recommendation that the NRC approve the MPS3 stretch power uprate.

The staff recognizes the Committee's commitment to safety and appreciates the Committee's continued support of the power uprate process.

Sincerely,

/RA Bruce Mallett for/
