**Subject:** RE: Harris meetings  
**Attachments:** RE: Harris Nuclear Plant Environmental Site Audit

Doug,

This has already been arranged, per our earlier agreement. I received the attached email this morning from the NCDOT folks. They would like to bring 2 representatives.

**Subject:** RE: Harris meetings

Dave,

When you have a free moment please give me a call so that we can discuss the message below. I am in agreement with Dan in that it would be less complicated for you to make the arrangements with the stakeholders that are necessary for the audit. However, the NRC will still need to make arrangements with the applicant to accommodate the trip. I am wondering if Monday morning would be the best time for a tour of the roadways in lieu of the site visit?

Thanks,

Doug

**Subject:** Harris meetings

Doug,

We will need to invite the NC Dept of Transportation to the Harris Site Audit, and request from the applicant a special tour of the roadways expected to be flooded by the elevated reservoir. I can provide the specific road segments if necessary. The NCDOT lead in the immediate area is Wally Bowman: [wbowman@dot.state.nc.us](mailto:wbowman@dot.state.nc.us), 919-560-6581. We want to be able to ask them their views of what the impacts would be and the process for rerouting the roads. Also the applicant is likely to have completed their impact study on the transportation system and we may be able to get NCDOT's views on it.

My understanding is that NRC is handling these types of meeting arrangements for the COL reviews. If not, please advise. It is also likely that we will meet with the Wake County Parks, Recreation and Open Space officials in addition to the list I received today of other planning officials. We also have yet to talk to the school districts and some other contacts we received during the preapps.

So I imagine that the transportation offsite tour will require ½ a day, and another 1.5 days will be required for offsite meetings with local officials. I have seen the site and would not need to see it again, and that time could be spent doing the transportation system tour with the DOT folks and the applicant. These are suggestions for consideration – please advise how you would like to proceed.

Thanks
