Education:

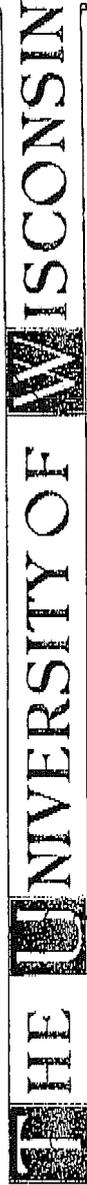

University of Wisconsin – Milwaukee 9/1969 – 8/1970
 Medical Technologist - ASCP certification 11/20/1970

Since 1987, I have worked at the NIH facility in Phoenix, Arizona. First as a generalist Technologist in the laboratory. Since the beginning of 2003 as the laboratory supervisor.

We have measured insulin in tritium treated blood samples since 1992. I have taken part in the annual radiation training courses since that time. I have been trained in proper laboratory safety and sample handling techniques. Our lab is CLIA certified.

Certification Report

Jonathan A Krakoff, MD

is certified by the following ABMS® Member Board:

**American Board
of Medical Specialties**

Higher standards. Better care.

The American Board of Internal Medicine

Specialty Certification

Internal Medicine

Certification expires December 31, 2012

An internist provides long-term, comprehensive care in the office and the hospital, managing both common and complex illnesses of adolescents, adults and the elderly. Internists are trained in the diagnosis and treatment of cancer, infections and diseases affecting the heart, blood, kidneys, joints and digestive, respiratory and vascular systems. They are also trained in the essentials of primary care internal medicine, which incorporates an understanding of disease prevention, wellness, substance abuse, mental health and effective treatment of common problems of the eyes, ears, skin, nervous system and reproductive organs.

Subspecialty certification

Endocrinology, Diabetes and Metabolism

Certification expires December 31, 2010

The purpose of subspecialty certification by the American Board of Internal Medicine (ABIM) is to provide assurance to the public and the medical profession that a certified physician has successfully completed an accredited educational program and an evaluation process, including a secure, proctored examination in a particular area of internal medicine. ABIM certification in a subspecialty also assures that the physician possesses the knowledge, skills, and experience requisite to the provision of high-quality patient care. The American Board of Internal Medicine has established certification processes for the subspecialties of Adolescent Medicine, Geriatric Medicine, Sports Medicine, Sleep Medicine, Cardiovascular Disease, Clinical Cardiac Electrophysiology, Critical Care Medicine, Endocrinology, Diabetes, and Metabolism, Gastroenterology, Hematology, Infectious Disease, Interventional Cardiology, Medical Oncology, Nephrology, Pulmonary Disease, Rheumatology, and Transplant Hepatology.
