Subject: Geotechnical Issues

Hi Greg/Bill:

It was good talking to you this afternoon. I thought it would be important to talk about the geotechnical studies and how it may impact the EIS schedule. In particular, I would like to discuss the dewatering plan, the dewatering area and impacts (small-large), the excitation methodologies, discharge of dewatering, wetland impacts, impact on the EIS schedule. Also, has the Army Corps of Engineers been contacted?

The teleconference line for the 1:00pm (eastern) meeting is: 1-888-790-1716 Password 37179#.

I look forward to talking to you tomorrow.

regards,

Paul Kallan
