

## UNITED STATES NUCLEAR REGULATORY COMMISSION

REGION IV 612 EAST LAMAR BLVD, SUITE 400 ARLINGTON, TEXAS 76011-4125

August 1, 2008

Potlatch Forest Products Corporation c/o Idaho Pulp & Paperboard ATTN: Paul E. Bridges Radiation Safety Officer P.O. Box 1126 Lewiston, ID 83501-1126

SUBJECT: LICENSE AMENDMENT

Please find enclosed Amendment No. 07 to NRC License No. 11-27075-01. This license amendment authorizes a name change in accordance with 10 CFR 30.34(b), as requested. Items 8.A. through 8.C. were modified to reflect a maximum possession limit. In addition, Item 9.C. was corrected to reflect the authorization to perform service activities on the specifically licensed devices containing Krypton-85, as requested in your license renewal dated September 28, 2000. Please note, that since these devices are specifically licensed, then the device model numbers are not explicitly identified on the license. An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14)(viii). You should review the enclosed document carefully and be sure that you understand all conditions. If there are any questions, please contact me at (817) 276-6552.

NRC's Regulatory Issue Summary (RIS) 2005-31, provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS. The RIS may be located on the NRC Web site at: <a href="http://www.nrc.gov/reading-rm/doccollections/gen-comm/reg-issues/2005/">http://www.nrc.gov/reading-rm/doccollections/gen-comm/reg-issues/2005/</a>. Additionally, the link for frequently asked questions may be located at: <a href="http://www.nrc.gov/reading-rm/sensitive-info/materials.html">http://www.nrc.gov/reading-rm/sensitive-info/materials.html</a>, then select "Withholding of Sensitive Information." Pursuant to NRC's RIS 2005-31, the enclosed materials license will not be made publicly available.

Please note that by License Condition 28 you are required to comply with the requirements of the "Order Imposing Increased Controls" (ADAMS Accession No. ML053130183) published in the Federal Register on December 1, 2005 (70 FR 72128); and with the "Order Imposing Fingerprinting and Criminal History Records Check Requirements for Unescorted Access to Certain Radioactive Materials" (fingerprinting Order) (ADAMS Accession No. ML073230738) published in the Federal Register on December 13, 2007 (70 FR 70901).

This License Condition requires that you complete implementation of said requirements by the first day that radionuclides in quantities of concern are possessed at or above the limits specified in "Table 1: Radionuclides of Concern" contained within the fingerprinting Order, and notify, in writing, the Director, Office of Federal and State Materials and Environmental Management Programs, U.S. NRC, Washington, DC, 20555, when you have completed the requirements of this License Condition. Our records indicate that you provided a response to the NRC dated June 20, 2006 and that you are currently are not required to implement the Increase Controls and fingerprinting Order requirements.

NRC expects licensees to conduct their programs with meticulous attention to detail and a high standard of compliance. In particular, note that you must:

- 1. Operate by NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers: Inspection and Investigations," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
- 2. Notify NRC in writing of any change in mailing address.
- 3. Request and obtain a license amendment before you:
  - a. Change Radiation Safety Officers;
  - b. Order byproduct material in excess of the amount, radionuclide or form authorized on the license:
  - c. Add or change the areas or address(es) of use identified in the license application or on the license; or
  - d. Change the name or ownership of your organization.

NRC will periodically inspect your radiation safety program. Failure to conduct your program according to NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action against you. This could include issuance of a notice of violation; imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available on the following internet address: <a href="http://www.nrc.gov/reading-rm/doc-collections/enforcement/">http://www.nrc.gov/reading-rm/doc-collections/enforcement/</a>.

The NRC no longer publishes the NRC Rules and Regulations loose leaf supplements. However, an electronic version of the NRC's regulations is available on the NRC Web site at <a href="https://www.nrc.gov/materials/miau/mat-toolkits.html">www.nrc.gov/materials/miau/mat-toolkits.html</a>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html.

Thank you for your cooperation.

Sincerely.

Rachel S. Browder, Health Physicist Nuclear Materials Safety Branch B
