Conversation on July 25, 2008 with Ray
Carlson, RSO.

The reviewer spoke to RC to inform him that the amendment he submit listing multiple authorized users (AU) was amendment 57, however, the most current amendment was 60. Amendment 60 listed additional users that were not on amendment 57. RC asked that the reviewer use amendment 60 as this is the most current and this will save a future amendment. There were no other issues with this request.

James Mullauer, 7/25/08
