Dear Mr. O'Reilly:

WATTS BAR NUCLEAR PLANT UNITS 1 AND 2 - NRC REGION II INSPECTION REPORT
50-390/80-21, 50-391/80-15 - ADDITIONAL INFORMATION CONCERNING INFRACTION
390/80-21-01

The subject inspection report dated August 14, 1980 cited Tennessee Valley Authority (TVA) with four infractions and four deficiencies. TVA's responses were provided on September 11, 1980, revised responses were submitted on November 24, 1980, and additional revisions to the subject responses were provided on February 19 and April 7, 1981.

In our April 7, 1981 response to the subject infraction, TVA committed to review all system transfers before transfer #67-2 and to identify all incomplete work, documentation, and drawings. This was to be completed by August 1, 1981. However, this review will not be finished until October 1, 1981. This matter was discussed with Inspector R. V. Crienjak on September 4, 1981.

If you have any questions, please get in touch with D. L. Lambert at FTS 857-2581.

To the best of my knowledge, I declare the statements contained herein are complete and true.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
