  3. Letter from Ronald J. DeGregorio (Exelon Generation Company, LLC) to Samuel J. Collins (U.S. Nuclear Regulatory Commission) dated February 26, 2008.

Dear Mr. Collins:

Pursuant to the Reference 1 letter, you requested that Exelon provide written confirmation to the NRC when the actions included in that letter and the Reference 2 letter have been completed. In the Reference 2 letter, Item 16 involved conducting safety conscious work environment (SCWE) surveys of the security organizations at the remaining Exelon sites to identify any required corrective actions. The Reference 3 letter modified the schedule for completion of these surveys to coincide with scheduled transitions to Exelon Nuclear Security.

This letter is being provided as written confirmation that activities and commitments specific to Peach Bottom Atomic Power Station documented in the referenced letters are complete and were inspected, as documented in NRC Inspection Report 05000/277-2008-008 and 05000/278-2008-008, dated July 15, 2008. Reference 2, Item 16, will be completed as

committed to in the attachment to this letter. Thus, based on this written confirmation, the aforementioned inspection results, and the commitment included in the attachment, Exelon requests that the NRC close Confirmatory Action Letter 1-07-005.

Please contact me if you have questions regarding this request at (610) 765-5360.

Sincerely,

Joseph P. Grimes  
Vice President – MidAtlantic Operations  
Exelon Generation Company, LLC
