

September 8, 2008

Mr. Peter J. Miner, Director
Regulatory Affairs and Quality Assurance
USEC Inc.
6903 Rockledge Dr.
Bethesda, MD 20817-1818

SUBJECT: FLUOR ENTERPRISES, INC., CLASSIFIED COMPUTER NETWORK APPROVAL
(TAC L32444)

Dear Mr. Miner:

I am responding to your request dated June 12, 2008 (AET 08-0048), in which you transmitted information regarding changes to classified computer networks associated with Fluor Enterprises, Inc. in Greenville, South Carolina (Fluor).

The Department of Energy (DOE), as the designated approving authority, issued a letter dated July 30, 2008, which transmitted their approval and accreditation, with noted additional requirements, of the proposed changes to Fluor's classified computer network.

We have completed our review of the accreditation information provided for GV2-ACP-002, GV2-ACP-003, and GV2-ACP-004. We find the certification acceptable as our basis to authorize implementation. Conditional on DOE's noted additional requirements, the U.S. Nuclear Regulatory Commission (NRC) hereby grants operational authorization of the aforementioned changes to the classified computer networks as described by the DOE accreditation letters. Per Randy DeVault's e-mail dated August 4, 2008, additional verification of the installation of the subject networks is not required.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR), Section 2.390 of the NRC's Rules of Practice, a copy of this letter will be available electronically from the Publicly Available Records component of NRC's Agency-wide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Website at <http://www.nrc.gov/reading-rm/adams.html>.

This action completes the effort on TAC L32444. If you have any questions regarding this license, please contact James Downs at (301) 492-3232, or by email at james.downs@nrc.gov.

Sincerely,

/RA/

Brian W. Smith, Chief
Enrichment and Conversion Branch
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards

Docket No.: 70-7003, 70-7004
