SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Mr. Snider:

In the letter dated June 18, 2008, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license. The NRC staff has reviewed the information provided in that letter and additional information provided in a telephone conversation on August 5, 2008, and we have concluded that no leaking sealed source were ever possessed by you based on routine leak test data and that all licensable radioactive material has been removed from your facility and transferred and received by another licensee authorized to possess the make and model of gauges transferred.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required and your facility meets NRC criteria for release for unrestricted use and termination of NRC license number 24-26722-01. Accordingly, an amendment is enclosed, terminating your NRC license number 24-26722-01, as requested.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

C. J. Snider, P.E.

If you have any questions, please call me at (630) 829-9829.

Sincerely,

A handwritten signature in cursive script that reads "Loren J. Hueter".
