Kavita-

Thank you for your interest in the workshop and yes, I do remember you from the IAEA meeting.

Regarding your Qs below, there is no official or pre-registration needed for this meeting, so you will only need to make sure you have your travel and hotel arrangements taken care of for the duration of the meeting. If you would like to participate in the roundtable discussions, however, please let either Dr. John Jankovich, telephone (301) 415-7904, e-mail, or myself know, so that we may include you on the agenda.

Again, thank you for your interest in this upcoming workshop. Please continue to check NRC's public website, <http://www.nrc.gov/materials/miau/licensing.html> to view any additional documents relevant to this issue.

Best regards,

Cyndi

Subject: Participation as observers in public meeting on the use of Cs-137 Chloride Sources

Cynthia

You may remember me as the head of the Canadian delegation at the IAEA technical meeting in Vienna on the security of sealed sources two years ago.

I am writing this because we at the CNSC, are interested in attending the public meeting on the use of CsCl as observers in order to get some additional insight into the issues that will be addressed at the meeting. I have read the USNRC issues paper on the subject with great interest. All of issues that are identified are going to be relevant issues that the CNSC, as the Canada's nuclear regulator, will have to address in the near future.

I am not sure what the protocol is for attending a USNRC public meeting. As we will be making the trip exclusively to attend to meeting, I want to make sure we will be allowed to do so and also that we will have guaranteed access to the meeting. There will likely be two CNSC staff who will be attending.

Could you please let me know what we must do to register for the meeting.

Thanks

Kavita
