Receipt of Petition for Rulemaking

The Council on Radionuclides and Radiopharmaceuticals (CORAR)<sup>1</sup> members are involved in production of Mo-99 and the manufacturer of Tc-99m generators which use Mo-99. The above referenced Petition for Rulemaking has a direct impact on several CORAR member companies.

Due to the details contained in the Petition by the NRDC, and the short comment period, we respectfully request an extension of the comment period. If granted, this extension will allow us to provide NRC some substantive comments which will aid NRC in their decision-making process for the Petition.

Thank you for your consideration of an extension of this comment period.

Sincerely,

Roy W. Brown  
Senior Director, Federal Affairs

<sup>1</sup> CORAR members include the major manufacturers and distributors of radiopharmaceuticals, radioactive sources, and research radionuclides used in the U.S. for therapeutic and diagnostic medical applications and for industrial, environmental and biomedical research and quality control.
