Subject: Request to Extend Public Comment Period of PRM-50-90

On behalf of the American College of Radiology (ACR)—a professional organization serving more than 32,000 radiologists, radiation oncologists, interventional radiologists, nuclear medicine physicians, and medical physicists—I am writing to support the request from the Council on Radionuclides and Radiopharmaceuticals (CORAR) that the Nuclear Regulatory Commission (NRC) extend the public comment period for PRM-50-90.

CORAR indicated in their formal request that they plan to provide substantive comments if given more time to address the details within PRM-50-90. We believe the comprehensive feedback of the medical isotope production community is crucial, and an extension of the public comment period would benefit all stakeholders.

Thank you for your consideration of this request. Please contact myself or Michael Peters, ACR Regulatory Affairs Specialist, at 202-223-1670 if you have questions or need additional information.

Sincerely,

Gloria R. Romanelli, Esq.
