EDO Daily Notes for September 25, 2007

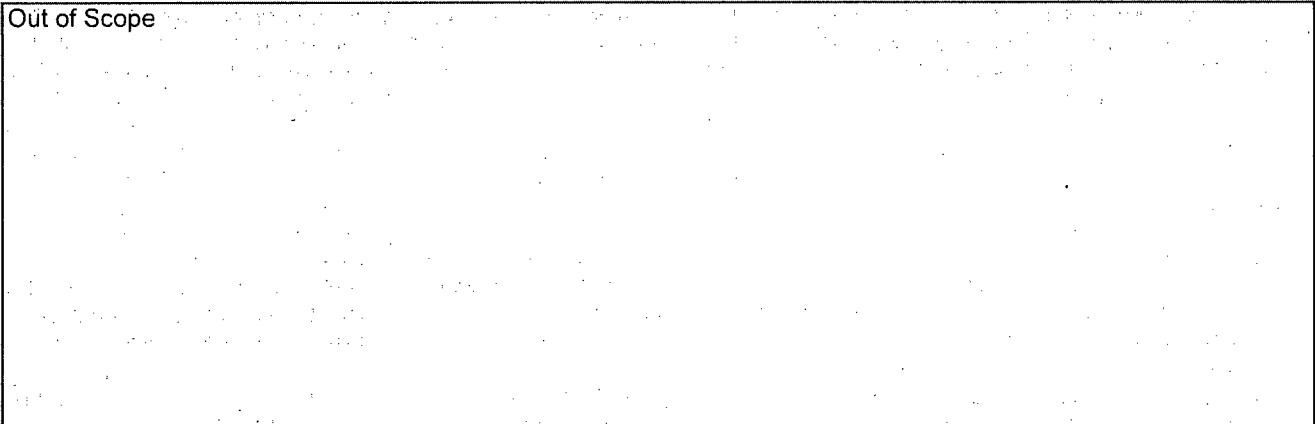

Out of Scope

NRR

- On September 18, the staff held a non-public meeting (proprietary) with Westinghouse to discuss the issues identified in the draft Safety Evaluation, which will suspend approval of Topical Report CENPD-397, "Improved Flow Measurement Accuracy Using CROSSFLOW Ultrasonic Flow Measurement Technology," and impact at least two pending power uprate requests. The staff anticipates a similar meeting with Omaha Public Power District personnel in early October in preparation for a resubmittal of their power uprate request using a different approach to CROSSFLOW calibration.
