Subject: Fwd: Feedback on Westinghouse Crossflow UFM

NRR is asking about RIS 2007-24.

Tom, please find out scope of request and when they need it and let others know. If you anticipate a significant project to find out, let's discuss.

thanks.

I haven't heard anything. Any of you? Probably more likely that the residents would have heard something.

As you are aware, the staff issued RIS 2007-24, "NRC Staff Position on the Use of the Westinghouse Crossflow Ultrasonic Flow Meter for Power Uprate or Power Recovery" dated September 27, 2007 to inform licensees of the suspension of the staffs approval of the topical report for the Crossflow UFM. To date, we have received no feedback on the impact of this action nor are we aware of any activities planned by licensees per the RIS. **We would appreciate any input you may have on what licensees are doing or plan to do with respect to the position taken in RIS 2007-24. You can provide that input to me.** Let me know if you have any questions on this. Thanks.
