## NATIONAL SCIENCE FOUNDATION

### National Science Board; Request for Public Comment on Use of Cost Sharing in National Science Foundation-Funded Activities

**ACTION:** Notice; request for public comment.

**SUMMARY:** On August 9, 2007, the America COMPETES Act directed the National Science Board (Board) of the National Science Foundation (NSF) to “evaluate the impact of its [2004] policy to eliminate cost sharing for research grants and cooperative agreements for existing programs that were developed around industry partnerships and historically required industry cost sharing, such as the Engineering Research Centers [ERCs] and Industry/University Cooperative Research Centers [I/UCRCs].” The Act directed that the Board “also consider the impact that the cost sharing policy has on initiating new programs for which industry interest and participation are sought.”

In fall 2007, the Board charged a Task Force on Cost Sharing to evaluate the

impacts of its 2004 policy on the ERC and I/UCRC programs and also on the Experimental Program to Stimulate Competitive Research (EPSCoR), another NSF program with capacity-building goals. On February 8, 2008, the Board issued a report to Congress containing several recommendations regarding mandatory cost sharing policy at NSF ([http://www.nsf.gov/nsb/publications/2008/rprt\\_congress\\_cs\\_policy.pdf](http://www.nsf.gov/nsb/publications/2008/rprt_congress_cs_policy.pdf)). The Board is continuing its study, focusing now on voluntary cost sharing and the impact of both mandatory and voluntary cost sharing on broadening the participation of traditionally underrepresented groups and organizations in federally sponsored research. The Board's intent is to release a second, more comprehensive report on NSF cost sharing policy in early 2009. Qualitative input from the research community for this report will be drawn in part from responses to this notice and from two public roundtable discussions held in Arlington, VA on July 9 and 10, 2008.

The Board is soliciting public comment regarding community experiences in cost sharing with emphasis on the following: (1) The relationship between cost sharing and NSF program goals; (2) the relationship between cost sharing and institutional competitiveness in NSF grant funding; (3) the role of cost sharing in the NSF merit review process; (4) the importance of types, sources, and timing of voluntary cost sharing; (5) effort associated with tracking and reporting cost-shared resources; (6) the relationship between cost sharing and institutional strategic investment; (7) options for ensuring equity in NSF grant funding when cost sharing is either required or volunteered; (8) research resources from state providers; and (9) research resources from industry providers.

Full text of questions can be found at <http://www.nsf.gov/nsb/committees/cs/comment.jsp>. Additional background material about the Task Force can be found at [http://www.nsf.gov/nsb/committees/tskforce\\_cs.jsp](http://www.nsf.gov/nsb/committees/tskforce_cs.jsp).

**DATES:** Comments must be received by October 1, 2008.

**ADDRESSES:** Comments should be addressed to Jennifer Richards, Executive Secretary, Task Force on Cost Sharing, National Science Board Office, National Science Foundation, 4201 Wilson Boulevard, Suite 1220, Arlington, VA 22230; telephone (703) 292–7000; FAX (703) 292–9008; e-mail [nsbcostsharing@nsf.gov](mailto:nsbcostsharing@nsf.gov). Due to potential delays in NSF's receipt and

processing of mail sent through the U.S. Postal Service, we encourage respondents to submit comments electronically to ensure timely receipt. We cannot guarantee that comments mailed will be received before the comment closing date. Please include “Cost Sharing” in the subject line of the e-mail message, and your name, title, organization, postal address, telephone number, and e-mail address in the text of the e-mail message. Please also include the full body of your comments in the text of the e-mail message and as an attachment.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 52–027 and 52–028]

### South Carolina Electric and Gas Company as Itself and Acting as Agent for the South Carolina Public Service Company (Also Referred to as Santee Cooper) Acceptance for Docketing of an Application for Combined License for Virgil C. Summer Nuclear Station Units 2 and 3

By letter dated March 27, 2008, South Carolina Electric and Gas Company (SCE&G), acting for itself and as an agent for South Carolina Public Service Company (also referred to as Santee Cooper) submitted an application to the U.S. Nuclear Regulatory Commission (NRC) for a combined license (COL) for two AP1000 advanced passive pressurized water reactors in accordance with the requirements contained in 10 CFR 52, “Licenses, Certifications and Approvals for Nuclear Power Plants.” These reactors will be identified as Virgil C. Summer Nuclear Station (VCSNS) Units 2 and 3 and located on the existing VCSNS site in Fairfield County, South Carolina. A notice of receipt and availability of this application was previously published in the **Federal Register** (73 FR 39339) on July 9, 2008.

The NRC staff has determined that VCSNS has submitted information in accordance with 10 CFR Part 2, “Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders,” and 10 CFR Part 52 that is acceptable for docketing. The docket numbers established for the VCSNS Units 2 and

3 COL application are 52-027 and 52-028, respectively.

The NRC staff will perform a detailed technical review of the application. Docketing of the application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny the application. The Commission will conduct a hearing in accordance with Subpart L, "Informal Hearing Procedures for NRC Adjudications," of 10 CFR Part 2 and will receive a report on the COL application from the Advisory Committee on Reactor Safeguards in accordance with 10 CFR 52.87, "Referral to the Advisory Committee on Reactor Safeguards (ACRS)." If the Commission finds that the COL application meets the applicable standards of the Atomic Energy Act and the Commission's regulations, and that required notifications to other agencies and bodies have been made, the Commission will issue a COL, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

In accordance with 10 CFR Part 51, the Commission will also prepare an environmental impact statement for the proposed action. Pursuant to 10 CFR 51.26, and as part of the environmental scoping process, the staff intends to hold a public scoping meeting. Detailed information regarding this meeting will be included in a future **Federal Register** notice.

Finally, the Commission will publish in the **Federal Register** a notice of hearing, which will notice the opportunity to petition to intervene.

Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, and will be accessible electronically through the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room link at the NRC Web site <http://www.nrc.gov/reading-rm/adams.html>. The application is also available at <http://www.nrc.gov/reactors/new-licensing/col.html>.
