Thank you Jean-Claude. Please note that at the moment, we don't have a "confirmatory" status in the eRAI system. SO until we do, or we've confirmed it, items b. and e. will remain in Open status.

Andrea, please note staff's review status of Dominion response to NRC RAI Letter No. 004 for RAI No. 11.02-1, 11.04-1A/B, & 11.05-1/2. See Dominion Letter NA3-08-051, dated June 30, 2008.

- a. RAI No. 11.02-1: Staff had to develop tools to conduct this analysis as there are currently no tools to do this, other than a manual method. The method was sent to NRR/ADRO/DPR/PRS for confirmation. While the staff's analysis is nearly done, CHPB needs to get confirmation on the method from NRR before reaching a conclusion. This measure is being taken since NRC/NEI dropped the adoption of a CBA template earlier this year. The method will be used for all applicants so as to standardize staff evaluations.
- b. RAI No. 11.04-1A: RAI closed, and now a confirmatory item.
- c. RAI No. 11.04-1B: This RAI addresses the adoption of NEI template for the PCP. NEI has submitted a final PCP template to the NRC, but closure of this RAI hinges on the staff issuing an SER on the final PCP template. The SER is in progress. Dominion has committed to update the text with the reference for the PCP template and SER. This RAI remains open as Dominion acknowledges this status.
- d. RAI No. 11.05-1: This RAI addresses the adoption of NEI template for the ODCM. NEI has not yet submitted a final ODCM template to the NRC, but closure of this RAI also hinges on the staff issuing an SER on the final ODCM template. The ODCM and SER are in progress. Dominion has committed to update the text with the reference for the ODCM template and SER. This RAI remains open as Dominion acknowledges this status.
- e. RAI No. 11.05-2: RAI closed, and now a confirmatory item.

Regards, Jean-Claude ...
