Alicia,

This does not pass the 'giggle' test. A request to get an update on permits (401, NPDES, etc) and SMEs to discuss the hydrology-related sections are, at a minimum, required to alert Dominion that hydrologists are coming and are interested in discussing the application. Is PNNL in charge of developing (and tracking) the master Info Needs...and also Dominion's responses during the audit? Is this assumption incorrect?

Thanks,  
Chris

Alicia (and/or Laura),

This is the latest list of Info Needs I can find - but it's missing the hydrology needs. Where can I find the list that includes hydrology?

Thanks,  
Chris
