Yes, I think this may be the best approach. This is a fine balancing act between our responsibility to the public and the applicant.

Folks;

Just to be clear, you'd like me to intercede with Harry and see exactly what he's aiming to do in the wake of the ESP being issued, correct? And I was considering the "we'll be happy to look at all these issues in the COL environmental review" approach, how does that sound?

Scott
