Subject: Training of Authorized User for Sir-Spheres

Dear Mr. Montgomery,

This is to certify that John Halligan, M.D. meets the training and experience requirements of 10 CFR 35.390 or 10 CFR 35.490. Dr John Halligan has successfully completed training in the operation of the microspheres delivery system, safety procedures, and clinical use for Sir-Spheres Yttrium-90 microspheres. Additionally, Dr John Halligan has successfully completed supervised work experience including three cases for Sir-Spheres for which he is seeking AU status. The three cases were implemented in the Angiography Suite of Providence Alaska Medical Center, Anchorage, Alaska on March 4th and 5th. The microsphere-specific training and experience requirements were satisfied by satisfactory completion of the training program provided by the vendor, SirTex Medical, Inc. for new users, and by receiving training supervised by the AU, Douglas M. Coldwell, M.D. who is authorized for Sir-Spheres and by the AMP, Yongli Ning, M.S. who received the training for Sir-Spheres before and conducted radiation safety for Sir-Spheres for more than 20 cases.

Should you have any questions regarding Dr John Halligan's training for Sir-Spheres, please contact me at 214-356-0443.

Sincerely,

Douglas M. Coldwell, Ph.D., M.D.
