Toye Simmons:

In reference to our Amendment Request dated May 27, 2008 we wish to withdraw our request to discontinue the use of the personnel monitoring devices. Through the process of relocating our facility, along with review of the company's overall insurance and safety practices, we feel it in the best interest of our gauge users to continue the use of the personnel monitoring badges. Please only proceed with our relocation amendment, for storage of our Portable Nuclear Gauging Moisture/Density Devices. All other aspects of our license will remain, as our most recent license indicates.

Your review of this Amendment Application is appreciated.

Very truly yours,
MIDWEST TESTING, INC.
