

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, ILLINOIS 60532-4352

AUG 08 2008

Edward Johnson III  
Radiation Safety Officer  
Terre Haute Regional Hospital  
3901 South 7<sup>th</sup> Street  
Terre Haute, IN 47802

Dear Mr. Johnson III:

Enclosed is Amendment No. 56 to your NRC Material License No.13-09649-02 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, naturally-occurring and accelerator-produced radioactive material (NARM) for imaging and localization studies is included in the definition of byproduct material (10 CFR 30.4), so an amendment is not required because your license already authorizes byproduct material permitted by 10 CFR 35.200. However, please be advised, review your radiation safety program to ensure that you have addressed all the items where you may need to amend your license to address the use of NARM materials. You may find the "NARM Toolbox" helpful on the NRC website at <http://nrc-stp.ornl.gov/narmtoolbox.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

E. Johnston III

- 2 -

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in black ink, reading "William P. Reichhold". The signature is written in a cursive style with a large, prominent initial "W".

William P. Reichhold  
Materials Licensing Branch
