Dear Governor Antonio:

The U.S. Nuclear Regulatory Commission (NRC) staff, with the assistance of its contractor and in cooperation with the State of Wyoming Department of Environmental Quality (WYDEQ), has prepared the enclosed document, NUREG-1910, "Generic Environmental Impact Statement for In-Situ Leach Uranium Milling Facilities – Draft Report for Comment" (Draft GEIS). The Draft GEIS was issued for public comment on July 28, 2008, and the public comment period is scheduled to close on October 7, 2008.

During the public comment period on the Draft GEIS, the NRC will be holding eight public meetings with the goal of receiving comments on the document from interested members of the public. Three of the meetings will be held in New Mexico: on September 8, 2008, in Gallup, on September 9, 2008, in Grants, and on September 11, 2008, in Albuquerque. During that time, the NRC staff would be interested in meeting with you and other representatives of the Pueblo of Acoma.

We would like to discuss this matter further with you. Mr. James Park of my staff is the NRC project manager of the GEIS effort. He can be reached at 301-415-6935 or by electronic mail at James.Park@nrc.gov.
