SUBJECT
Phone call with TransNuclear to discuss the logistics regarding their pending response to the 7/22/2008 letter from NRC regarding the spent fuel storage cask security assessments.

SUMMARY (Continue on Page 2)

NRC Attendees: Larry Campbell, Shana Helton

The purpose of the call was to discuss the logistics regarding TransNuclear's response to a letter dated 7/22/2008 from Bill Brach to TransNuclear regarding the spent fuel storage cask security assessments. A similar letter was sent to the other major cask vendors (Holtec, EnergySolutions, and NAC). The letter stated that the NRC did not identify a need for any additional security measures based on the results of the security assessments. The letter gave the vendors the option of coming in to meet to discuss the staff's security assessment results in a non-public workshop, as information pertaining to the security assessments is sensitive.

Staff advised TransNuclear that NEI (Everett Redmond) has offered to coordinate the four vendor's response to the letter.
