Cc: CCNPP3COL Resource; Joseph Colaccino
Subject: Calvert Cliffs RCOLA - Late submittals from UniStar

UniStar had committed to submit revision 3 of their COLA in July. Today they said it would be the week of August 8. This revision, among other things, was to address site and regional geology issues, specifically low quality figures and unfamiliar references.

UniStar had committed to submit a supplement to their RCOLA on July 28 (slipped from July 15) to address Category 1 foundation dimensions. They missed that deadline and are checking when they will make that submittal.

UniStar had committed to submit a supplement to their RCOLA on July 30 to address GMRS issues. They are checking to see whether they can make that on time.
